A photograph of an automotive assembly line. In the foreground, a white car chassis is being worked on by several orange robotic arms. One arm is welding a part, creating a bright spark. In the background, more cars are on the line, and another robotic arm is visible. The scene is brightly lit, typical of a modern factory.

OTOMOTİV

A close-up photograph of a welder working on a large, curved metal component. The welder is wearing a blue protective suit, a welding mask with a yellow and black 'Eye Tech' logo, and gloves. Bright sparks are being generated from the welding point. In the background, another welder is visible, also working on a similar part. The overall lighting is blue and industrial.
